While you're there, be sure to take advantage of this month's Pallet Buy featuring Air Vent (see details below).

July Product Spotlight
Trimboard

KLEER - You can prime it, paint it and paint it again.... then still have to explain to your customer that wood rots. OR, you can install KLEER and know the only call you'll get from your customer is one for their next

job. KLEER's PVC trimboards are impervious to moisture and that's good news for you.

MiraTEC - Made from the patented TEC process, MiraTEC Treated Exterior Composite trim combines the eye-catching beauty of cedar with the long-lasting performance of an engineered product. Because it's not hardboard, MiraTEC trim will not delaminate, is moisture, rot and termite resistant and is backed by a 50-year limited warranty.

Why wait for your order? KLEER and MiraTEC in-stock now at Acme Building Materials.
